For your family's health.

Filter the water through a cloth.

Impurites in the water will sink to the bottom.

Water is clear.

Let the bucket sit undisturbed for an hour, or until the water is clear.

How to purify drinking water.

B.P. 1000 Zigwinchor, Senegal

AGADA - C.W.S.
To purify 20 litres of water:
- De-hull and grind into a powder the seeds of Moringa oleifera.
- Put two heaping spoonfuls of the powder into a small bottle containing clean water.

Filter the water through a cloth into the water to be purified.

Shake the bottle for 5 minutes.

Stir the water rapidly for 2 minutes, then stir it slowly for 10 to 15 minutes.
